Financial & Research Analyst | NISM Certified · Capital Markets · MBA Finance · Quantitative Analysis

PROFESSIONAL SUMMARY

NISM Certified Research Analyst and active equity investor with 5+ years of market experience, managing a personal and referral portfolio of ₹13 lakhs AUM that has consistently outperformed the index. Backed by an MBA in Finance & Marketing and 2+ years of hands-on experience in financial risk modelling and technical-commercial performance analysis. Skilled in both quantitative and qualitative analysis — applying SQL, Python, Excel, and Power BI to translate complex financial and market data into structured, investment-relevant insights. Deep domain knowledge across equity markets, mutual funds, fixed income, commodities, and capital markets instruments — with a genuine passion for financial research, portfolio analysis, and investment decision-making.

TECHNICAL SKILLS

Investment Research & Analysis: Equity Research, Fundamental Analysis, Valuation Concepts, Portfolio Analysis, Asset Allocation, Investment Advisory, Securities Research, Sector Research
Financial Domain: Capital Markets, Equity Markets, Mutual Funds, ETFs, Fixed Income, Bonds, Derivatives, Commodities, Financial Instruments, SEBI Regulations, AMFI Standards
Data & Reporting: Advanced Excel (Pivot Tables, Power Query, XLOOKUP, Financial Modelling, Template Automation), SQL, Python (Pandas, NumPy, Matplotlib), Power BI (DAX, Dashboard Development), MIS Reporting
Research & Communication: Market Research, Competitive Analysis, SWOT Analysis, Research Report Writing, Client Reporting, Stakeholder Communication
AI & Productivity: Gemini, Claude (research acceleration, financial analysis, insight synthesis), Process Automation

EXPERIENCE

Operations Analyst — Reconnect Energy Solutions, Bengaluru Sep 2024 – Present

- Analysed financial performance data and regulatory compliance metrics across multiple business units; translated deviation patterns into structured compliance reports for senior stakeholders — contributing to 8–10% improvement in regulatory outcomes and 50% reduction in financial penalty exposure.
- Conducted quantitative and qualitative performance research across regional portfolios — applying sector-level analytical frameworks directly analogous to equity research coverage methodology.
- Performed financial risk modelling and ROI analysis; derived a 1:7.5 Value-to-Cost ratio demonstrating financial efficiency of operational interventions — directly applicable to investment analysis and portfolio performance evaluation.
- Maintained detailed financial reporting and audit trails supporting regulatory compliance — directly applicable to SEBI-regulated investment reporting environments.
- Built automated financial templates and Excel models tracking performance benchmarks, compliance indicators, and financial metrics for finance and operations leadership.
- Communicated research findings clearly to internal teams and external clients — translating complex financial data into actionable recommendations for non-technical decision-makers.

PROJECTS

Historical Commodity Price & Volume Evaluation | Power BI · Excel · Trend Analysis

- Analysed price movements and volume patterns across Gold, Silver, Copper, and Platinum to identify inter-commodity correlations and breakout signals during high-volatility periods — findings structured into an investment-ready research note applicable to portfolio diversification and commodity sector coverage.

Indian Renewable Energy — Sector Research Note | Python · SQL · Statistical Analysis

- Conducted sector-level research across Indian energy sub-sectors to assess long-term investment opportunity — delivered as an analyst-ready research note concluding infrastructure companies suit growth investors while asset-heavy manufacturers suit conservative profiles.

Comprehensive Business & Operational Analysis— REConnect Energy Solutions | MBA Project | Excel · Financial Analysis · Research Frameworks.

- End-to-end financial and strategic analysis of a 38+ GW energy portfolio — quantified DSM penalty impact, derived 1:7.5 ROI ratio, conducted SWOT and gap analysis, and delivered investment-grade strategic recommendations.
